

DAX Solutions Corp

Capability Statement

Company Overview

DAX Solutions Corp is a Virginia-based program delivery and contracting infrastructure firm specializing in consulting, contract acquisition support, project oversight, operational coordination, and structured execution.

DAX Solutions Corp supports federal, state, local, and private-sector organizations through a scalable delivery model focused on planning, coordination, execution, and contract readiness.

Our firm is designed to provide responsive support for government initiatives, organizational operations, program implementation, and small-scale rapid-response engagements.

Core Competencies

Government Contract Acquisition & Bid Support

Support for identifying, preparing, and responding to procurement opportunities across federal, state, and local agencies.

Strategic Planning & Organizational Support

Operational alignment, process development, systems coordination, and planning support for organizations seeking scalable growth and structure.

Small Business Consulting & Startup Support

Guidance and operational readiness support for emerging businesses pursuing growth, opportunity development, and organizational structure.

Contract Execution & Delivery Coordination

Support for implementation, project coordination, quality oversight, and structured delivery across engagements.

Micro-Purchase & Simplified Acquisition Support

Rapid-response capability for contracts under \$10,000 and streamlined small-scale engagements.

Differentiators

Program Delivery Mindset

DAX Solutions Corp is built around execution, coordination, and operational delivery rather than transactional consulting.

Prime Contractor Infrastructure Model

Structured to identify opportunities, support contract acquisition, manage execution, and maintain operational oversight.

Rapid Engagement Capability

Positioned to support micro-purchase and simplified acquisition requirements through an agile internal structure.

Government-Ready Positioning

Aligned with procurement expectations and public-sector operational needs.

Scalable Delivery Framework

Supports both direct execution and coordinated delivery models when expanded capability is required.

Rapid Response Capability

DAX Solutions Corp is equipped to support simplified acquisition and micro-purchase requirements.

Our operational model allows us to:

- Rapidly initiate small-scale projects
 - Support short-duration engagements
 - Provide responsive execution
 - Deliver under streamlined procurement timelines
 - Perform directly on contracts under \$10,000
-
